

Gouging torch ref. 041516

**“Robust and
easy to
handle” ...**

The gouging torch is very safe and easy to use. It is used for chamfering, preparing sheet metal for welding, planing cracks, trimming, surface treatment and drilling holes in sheet metal.

A quality tool

- Solid oval handle with effective heat insulation
- Rotating jaw for round and flat electrodes
- High air flow
- Integrated valve for air flow adjustment
- Highly flexible special cable
- Rotating cable link
- 3/8" compressed air connection

Technical data to EN 60 974-11
type B:

Gouging torch

60% capacity:	max. 1000 A
Air pressure:	5,6 bar
Air flow:	0,79 m ³ /min
Connection:	3/8 NPSC
Weight:	1,75 kg (Measurement height 1m)
