

TYPE B JUMPER CABLES

Ref. 056312 - 056329 - 056336 - 056343 - 056558

Jumper cables with insulated clamps are essential for starting vehicles with difficult-to-access batteries, and they guarantee a safe start. This range of cables with GYS insulated clamps covers the required starting current of all vehicles from 200A to 1000A. Long and resistant, these cables are delivered with a carry bag making them easy to transport and store.
