

Foldable work lamp on tripod stand

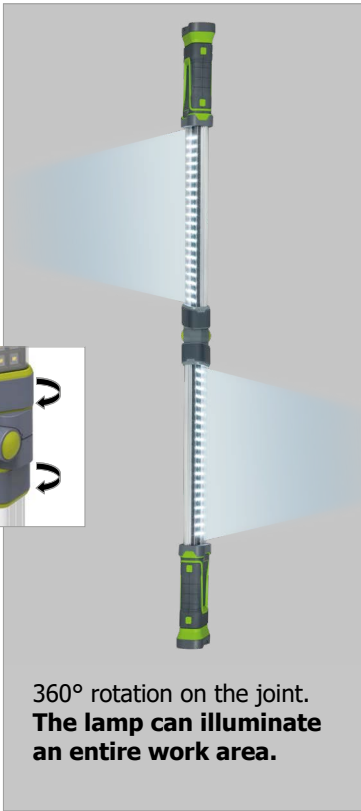

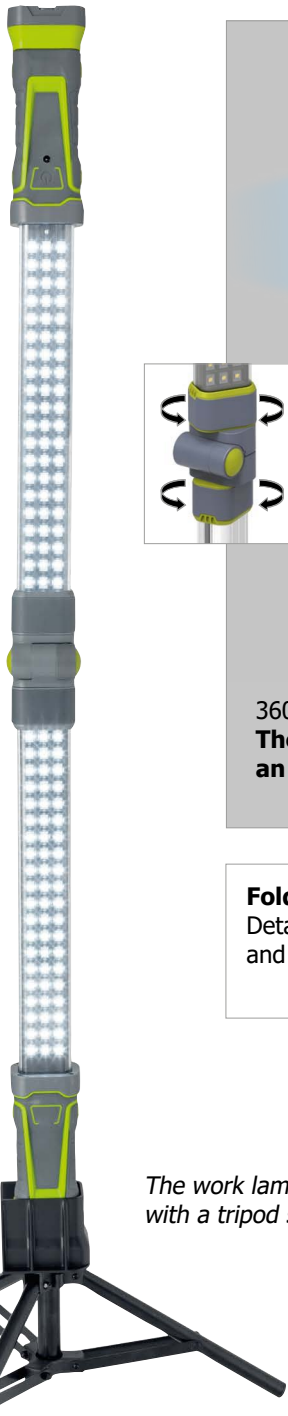

Ref. 058002 - Charger EUR

Ref. 058316 - UK Charger

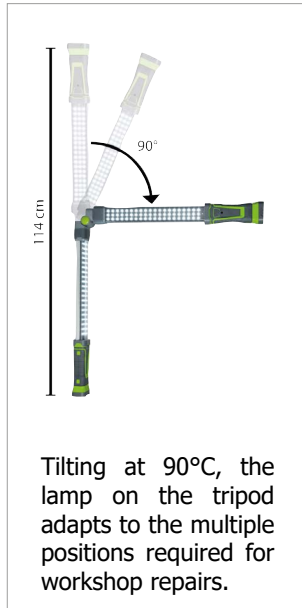

The folding work lamp with a tripod stand has all the necessary characteristics to become an indispensable tool for workshop repairs. Equipped with a large battery life (6h max), it is designed to be placed in multiple positions thanks to its magnetic ends, its extensible cord and its folding design and its 360° articulation.

Rechargeable internal battery	3.7 V, 4000 mAh Lithium.
High intensity mode	800 lumens.
SMD white LEDs	120 LEDs.
Battery life in low intensity mode	6 heures.
Battery life in low intensity mode	3 heures.

360° rotation on the joint.
The lamp can illuminate an entire work area.

Tilting at 90°, the lamp on the tripod adapts to the multiple positions required for workshop repairs.

Foldable design to save space.
Detachable magnetic ends with extendable and flexible cord at both ends.

The work lamp is supplied with a tripod stand

Each end has a hook and two magnets, for use under the bonnet.

250 lumens

800 lumens

2 levels of light intensity.
