

The RENOV CABLE PTI-PRO 220V has been developed as an upgrade to the previous PTI-s7 220V. This kit enables the use of G-arms thanks to its newly designed clamp and its simplified plug-and-play harness connection. It also boasts the latest GYSPOT software to operate the new clock's features.

## KIT CONTENTS

- G1 arm

- Inclined clamp support

- PTI PREMIUM PRO gyroscope

- Protective casing

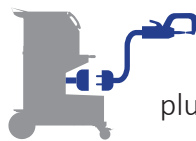

- PTI PREMIUM PRO clamp
- PTI PREMIUM PRO 220V arm cable (6 m)

The spot welder can now be updated in order to offer the latest features:

- Specialist harness connection to simplify maintenance operations
- Can be used with G-arms
- Equipped with the latest update of the GYSPOT software
