

The Neostart 420 maintains batteries even deeply discharged battery.

CHARGER FUNCTION

The Neostart 420 charges 12V and 24V lead acid batteries from **20Ah to 1000Ah**.

It is a traditional charger. Charging must be monitored.

STARTER FUNCTION

The Neostart 420 can start vehicles with 12V or 24V lead acid batteries from **35Ah to 160Ah**.

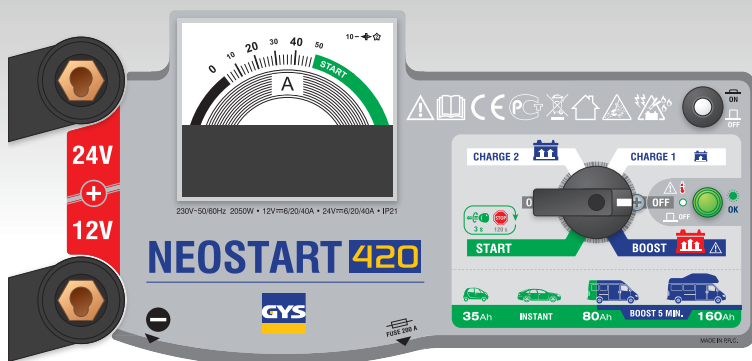

A pre-charge may be necessary to supply enough energy to start the vehicle.

High Power traditional starter and charger cable of instantaneous start even with deeply discharged battery.

- The Neostart 420 is protected against short circuits, polarity inversion and mains overvoltage.
- On board storage for cables and clamps
- Integrated wheels for portability
- Cables Ø 10 mm², (length: red - 2m, black - 1.8m)
- Externally visible and easily accessible fuse
- Large ammeter
