

The SART 200 maintains batteries even deeply discharged battery.

CHARGER FUNCTION

The Start 200 charges 12V lead acid batteries from **53 Ah to 240 Ah**.

It is a traditional charger. Charging must be monitored.

STARTER FUNCTION

The Start 200 can start vehicles with 12 V lead acid batteries from **35 Ah to 80 Ah**.

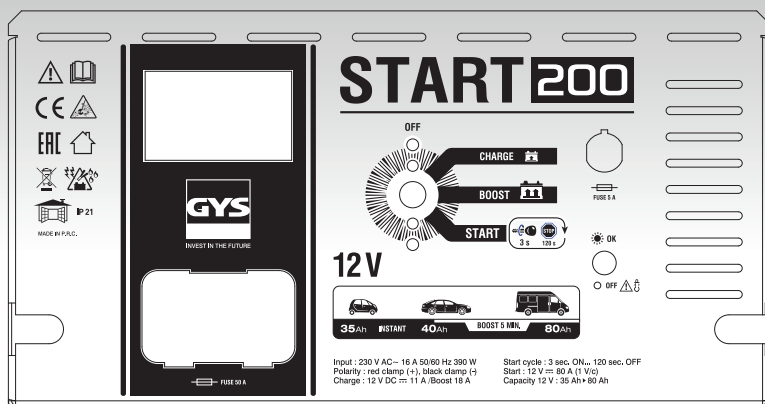

A pre-charge may be necessary to supply enough energy to start the vehicle.

High Power traditional starter and charger cable of instantaneous start even with deeply discharged battery.

- The Start 200 is protected against short circuits, polarity inversion and mains overvoltage.
- Handles for easy transportation
- Cables Ø 6 mm², (length: red & black - 1.5m)
- Externally visible and easily accessible fuse
- Large ammeter
