

REF. 045774

PROMAX 3/5-13G TRUE COLOR is a lightweight welding helmet, providing effective protection against light radiation, welding spatter and sparks from welding or grinding. This fully automatic mask transitions from clear to tinted in a fraction of a second, immediately upon arc ignition. Equipped with a comfortable headband, the helmet ensures that the user's hands are free and provides all the protection needed for welding applications.

FEATURES

- **4 different settings:**
 - Tint 5-9 / 9-13
 - Sensitivity and Delay
 - Grinding mode
- **9 shades available**, suitable for all welding operations. Can be used for TIG welding from 2 A.
- **4 sensors** for superior sensitivity
- **Excellent classification** : optical class 1/1/1/2 (EN379) for high image fidelity
- **Brightness 3** : outstanding visibility in clear state, ideal for welding preparation
- **Rapid darkening speed** : 0.08 ms
- **TRUE COLOR technology** : more accurate and detailed colour reproduction than conventional filters

TECHNICAL SPECIFICATIONS

UV/IR protection	DIN 15
Classification	1/1/1/2
Light tint	3
Dark tint	5-9 / 9-13
Reaction time	0,08 ms
Return-to-clear time	0,15 à 0,8 sec
Field of vision	100 x 50 mm
Power	solar + 2 piles (CR 2032*2)
Weight	540 g
Settings	Sensitivity, delay, tint, grinding settings
Light sensors	4
Application categories	MMA 5 ▶ 400 / TIG 5 ▶ 300 / MIG-MAG 5 ▶ 400
Standards	CE / EN 175B / EN 166 / EN 379

Supplied with a Multi Premium headband, designed to minimise neck tension.

Shade 5>13 and grinding mode
