

This pneumatic sharpener avoids complicated and time-consuming grinding operations and enables the user to easily remove pulling ring tips.

Economic

Each ring can be sharpened up to eight times.

Fast

A ring can be sharpened in five seconds.

Accurate

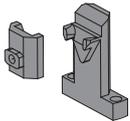

The sharpening profile is identical to that of the original ring for optimal welding.

Secure

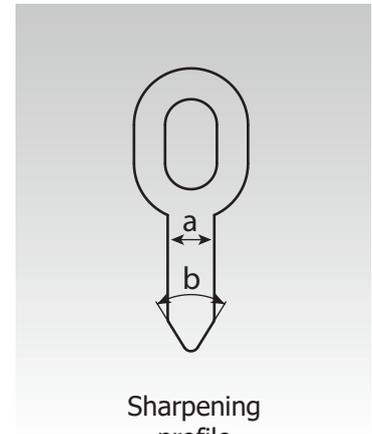

No risk of the user getting cut.
Does not require the user to wear PPE.

Compatible with straight pulling rings
(P.N. 050648)

Spare punch and die (P.N. 072299)
