

The Mobile Workbench is a versatile and easy to use piece of equipment for lightweight workshop use. Its laminated work surface has an anti-slip coating that prevents liquid from seeping in, and provides added grip and stability. Multi-directional castor wheels with brakes make it very easy to manoeuvre. Several features make it highly ergonomic for the user.

ERGONOMICS/RESILIENCE

- Multifunctional use;
- Ø 125 mm rubber castors with brakes;
- 3 mm rubber coating on work top prevents liquids from seeping onto the surface;
- Non-slip surface at the correct working height;
- Cutting edge for cleaning cloth;
- Dispenser for cleaning cloth;
- Waste bin hoop.
